

Cleaning Procedures

We operate the following cleaning regime within our holiday homes

On departure of our guests the units are fully aired. All areas are cleaned and high impact 'touch' areas are cleaned and disinfected with an approved disinfectant e.g. light switches, door handles and plates, worktops, handrails, table tops etc

Fresh bedding and towels are left for each guest. Each guest will have a bath and hand towel for use during their stay, for stays over 7 days extra towels are provided.

We have on site supplies of cleaning materials for your use if desired and these are located under the sink, these include various cleaning sprays/products and bleach.

We provide a small supply of hand wash, shower gel, washing up liquid, dishwasher tablets, laundry tablets, toilet rolls and kitchen towel for use during your stay. (We are aware that some people may feel more comfortable bringing their own supplies so please feel free to do so).

On entry to the units you will see a hand sanitizer unit for use on your arrival should you wish to. We use **Vira Safe** with at least 70% alcohol. It is made in the UK

To ensure we are able to apply these procedures between guests we ask that the check in and check out times are observed.

Thank you in advance for your support with these.
